Examiner's Reason for Allowance

1. Examiner withdraws the rejection in the previous office action since upon further consideration and in light of comments by the applicants, it is determined that the preload pressure is a structural limitation of the arrangement of the elements in the apparatus and not a method limitation with one of the elements having a preload pressure upon the bearings due to the way the apparatus is built.

If applicants disagree with the interpretation, they are welcome to clarify.

2. The previous reasons for allowance over the prior art of record have already been stated in the previous office action.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emmanuel S. Luk whose telephone number is (571) 272-1134. The examiner can normally be reached on Monday-Thursday 7 to 4 and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ben Utech can be reached on (571) 272-1137. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
